TITLE II ON THE VOTERS' LIST, COMPLAINTS AND APPEALS

Chapter I List of voters

Art. 10. § 1. In the case described in article 105, the Council of the burgomasters and lay judged closes the list of voters 24 days before the Election Day.

In the case mentioned in article 106, the list of voters is closed on the date of the royal decree that fixes the date of the elections. The voters are nevertheless invited to vote on the basis of the list which has been drafted for the regular meeting of the electoral committees if the dissolution of the Chamber of Representatives takes place after the 24th day preceding the date of the regular meeting of the electoral committees meaning an election has to be organized before the scheduled date.

§ 2. The voters' list contains the name, first names, birthdate, gender, main place or residence and the identification number from the national register or individual residents as it is stipulated in article 2, sentence 2 of the law from 8 August 1983. The register uses a continuous numbering and is organized by municipality or if not available, by section of a municipality either by alphabetic order of the voters or by geographic order of the streets.

§ 3. If the elections for the Chamber of Representatives take place on the same day as the elections to the European Parliament, the list of the Belgian voters enlisted in the population register or a Belgian municipality for the elections to the European Parliament equally serves as the list of voters for the election to the Chamber of Representatives.

Art. 11-12. Abrogated.

Art. 13. The public prosecution service of the courts of justice and tribunals are obligated to inform the burgomasters of the municipalities about the conviction or commitment to an institution of voters who have been registered in their population registers as well as the persons concerned once they are no longer open to regular appeals meaning therefore the exclusion from the electorate or the suspension of the right to vote.

The notification indicates:

1. the name, first names, birthplace and birthdate, place or residence of the convicted person or the internee;

2. the jurisdiction which has pronounced this decision and the date of the decision
3. the exclusion from the electorate or the expiration of the suspension from voting rights.

The public prosecution service of the courts of justice and tribunals indicate the date on which the commitment to an institution is supposed to end.

The clerks of the courts and tribunals inform the burgomasters of the municipalities about the exclusion and the expiration of the exclusion.

The Minister of Justice determines the modality in which this notification is issued and the Interior Minister defines the way in which the municipality administrations handle, store or in case of a change of residence, transfer them.

Art. 14. Abrogated.

Art. 15. At the latest on the 25th day before the Election day in the case described in article 105, or immediately after the list of voters according to article 10 and article 180bis, § 6, 1st sentence has been established as stipulated in article 106, the municipal authority sends two specimen of the register to the governor or magistrate he appoints.

However, for the municipalities Comines-Warneton and Fourons, the copies mentioned in the 1st sentence have to be sent to the commissioner of the municipal district of Mouscron and to the commissioner of the district of Tongres respectively.

Art. 15bis. From the municipalities of Fourons and Comins-Warneton, two additional copies of the voters' register with names listed in alphabetical order are send to the governors of the Provinces of Liège and West Flanders, respectively or to the appointed magistrates following the same procedure and deadlines as indicated under article 15.

Art. 16. On the date of closure of the voters' list, the Council of burgomasters and lay judges informs the citizen by publishing a bulletin in the usual form, inviting them to verify until the 12th day before the Election Day the voters' list during the opening hours of the municipal administration to check if they themselves or any other person is listed or listed correctly. This bulletin explains the procedure of complaints and appeals as stipulated in articles 18 and following.

Art. 17. § 1. The municipal administration is obligated to hand out copies of the completed list of voters to persons acting on behalf of a political party, asking for a copy by registered mail sent to the burgomaster of the municipality no later than on the 33th day before the Election Day and who commit in writing to present a candidates' list to the Chamber.

Each political party may obtain two specimen or copies of this voters' register free of charge, either on paper or on a chosen electronic standard device, only after having delivered a list of candidates to the Chamber in the electoral constituency where the municipality is situated in which the demand for the delivery of the list has been handed in according to the 1st sentence.

Persons listed under the 1st sentence can order additional copies of the lists against a fee which has been defined by the Council of burgomasters and lay judges.

If the political party is not presenting any list of candidates, it is no longer allowed to use the voters' list for electoral purposes, on pain of penalties enacted in article 197bis.

§ 2. All persons figuring in the documents of presentation of the candidates for the election, can get specimen or copies of the voters' list for a fee, after having put in the necessary demand mentioned in § 1er, 1st sentence.

The municipality administration verifies that the applicant runs for the election as a candidate before handing out the documents.

If the applicant is erased from the candidates' list, he is no longer allowed to use the voters' register for an electoral purpose, on pain of penalties enacted in article 197bis.

§ 3. The municipality administration is not allowed to deliver specimen or copies of the voters' register to other persons than the ones having ordered it according to § 1, 1st sentence or to § 2, 1st sentence. The persons who have received the specimen or copies are not allowed to pass them on to a third party.

The specimen or copies of the voters' list that have been delivered according to §§ 1 and 2, may only be used for electoral purposes at all times, even outside the time period between the date of delivery of the list and the date of the elections.

The specimen or copies of the voters' list delivered according to §§ 1 and 2 may not contain the identification numbers from the national Register on individual persons.

Chapter II Complaints before the Council of burgomasters and lay judges

Art. 18. From the date on which the voters' list is closed, all persons who have been unjustifiably listed, omitted or removed from the voters' list or for whom the mention on the register are not accurate in comparison to article 10, § 2, can make a complaint before the Council of burgomasters and lay judges no later than on the 12th day before the elections.

Art. 19. Art. 20. Complaints against article 18 or article 19 are introduced upon request and must be delivered to the secretary of the municipality or the Council of burgomasters and lay judges against receipt and together with all the supporting documents by registered mail.

The public officer who receives the complaint is legally obligated to record it on the day of delivery in a special register and to hand out a receipt; to create a file for each complaint, to number and sign the pieces and to enlist them with their reference number in the inventory listings enclosed to each file.

Art. 21. If the person concerned declares to be incapable of writing, the complaint may also be made orally. The complaint is received by the secretary of the municipality or his deputy.

The public officer who receives the complaint will write a protocol in which he states that the person concerned has declared to be incapable of writing.

The protocol contains the arguments of the person concerned. The public officer dates and signs the protocol, passes it on to the person concerned to read the document before handing him a signed double of it.

The public officer proceeds afterwards to the formalities as described in article 20, sentence 2.

Art. 22. The municipality administration encloses to the file copies or parts or all of the official documents in its possession that the applicant submits to justify a modification of the voters' register.

The municipality administration officially adjoins all official documents in his possession to the file that support the motives of the person concerned and listed in the protocol mentioned in article 21.

Art. 23. The index of the complaints contains the location, day and time of the session during which the case or the cases will be handled.

This index is put up at least 24 hours before the session in municipality administration where everyone can take note of it or copy it.

The municipality administration notifies without delay and by use of all means the complainant or if necessary the involved parties about the date on which the complaint will be examined.

This notification mentions explicitly and in all details as stipulated in article 26, sentences 2 to 4 that the decision can only be appealed during the session.

Art. 24. During the deadline specified in article 23, the file of complaints and the report mentioned in article 25, sentence 2, are made available in the office for all parties, their attorneys or their legal representatives.

Art. 25. The Council of burgomasters and lay judges is obliged to rule all complaints within four days after the request or protocol has been handed in, according to article 21 and in any case before the 7th day before the elections.

It rules in a public session, based on the report made by a member of the Council and after hearing the parties, their attorneys or legal representatives if they are present.

Art. 26. A motivated decision, mentioning the name of the rapporteur and of the attendant members is given for each case separately; it is enlisted in a special register.

The chairman of the Council invites all parties, their attorneys or legal representatives to sign if they wish to, on the register as mentioned in the precedent sentence, a declaration of appeal.

The unsuccessful parties are supposed to consent to the decision made by the Council.

Without a declaration or an appeal signed by the parties present or their representatives, the decision of the Council is final. The final character of the decision is stated in the special register as mentioned in the precedent sentence and the instruction to change the voters' list is immediately given.

The decision of the Council is placed in the municipality's office where everyone can take notice of it free or charge.

The appeal of the Council's decision has suspense effect on any change of the voters' register.

However, the punishments pronounced against an absent witness are applied without prosecution by the court or the magistrate conducting the investigation.

Art. 31. In the electoral investigations no witness may be inquired in application of article 937 of the Code of Procedure.

However, an up to third-degree-relative by blood or marriage to any of the parties may not be heard as a witness.

Art. 32. The debates before the court shall be public.

Art. 33. In a public hearing, the chairman of the Court gives the parties the right to speak; they can be represented and assisted by an attorney.

The court after having listened to the position of the General State attorney, takes there and then a decision in the form of a decree that is read to the present public. This decree is given to the clerk of the court where the parties may view it free of charge.

The Council of burgomasters and lay judges is immediately informed about the judgment of the decree by the State attorney's office.

The decree shall be immediately executed in case it has direct consequence on the modification of the voters' list.

Art. 34. The appeal shall be adjudged in absence or presence of the parties. All the decrees rules by the court are definitive.

Chapter IV General provisions

Art. 35. The request made by several applicants contains one single indication of a residence. In absence of such indication, the applicants are presumed to have chosen residence with the first applicant.

75 days after the elections, the clerk of the court of first instance makes a copy of the report accessible for two weeks to all registered voters showing their invitation to vote. During this time period, the voters may send their written comments on this topic to the clerk of the court of first instance.

This envelope is only unsealed and opened in the presence of the regularly constituted committee. The number of ballot papers is immediately verified and the result of the verification noted in the protocol.

The chairman of the central electoral committee of the constituency sends at the same time to each of the heads of the vote counting sites forms of the tables he had prepared compliant to the provisions in article 161 for the heads of the vote counting sites to fill them out after the tallying of the votes.

If the committee decides that such a proposition cannot immediately be received, the demanding member of the committee or the candidate's witness can demand that the reasons for the refusal are noted in the protocol.

The voter goes directly into one of the compartments to cast his vote. Chapter V. On allocation of the seats for the elections to the Chamber of Representatives.

Art. 165bis. Are only admitted to the allocation of the seats the lists having achieved at least 5% of the total general vote in the electoral constituency

Art. 166. The total number of valid ballot papers in favor of a list, are the electoral numbers of it. This total is defined for each list through the addition of the ballot papers for each of the four sub-categories according to article 156, § 1, sentence 2.

Art. 167. The central electoral committee of the constituency, divides successively the total number of votes by 1, 2, 3, 4, 5, etc. for each of the lists and classifies the quotients according to their

importance until there is concurrence of the total number of quotients equal to the one of the members to elect.

The last quotient serves as divisor electoral

The distribution between the lists takes place by attributing to each of it as many seats as their electoral number contains the divisor, with the exception of article 168.

If a list obtains more seats than she has incumbent and substitute candidates, the non-distributed seats are given to other lists. The allocation between them follows the operation indicated in the 1st sentence; each new quotient determines in favor of the list it belongs too, the attribution of a seat.

Chapter VI Abrogated.

Art. 169 to 171. Abrogated.

Chapter VII On the instructions for the delegates

Art. 172. If the number of incumbent candidates of a list is equal to the number of seats allocated to the lists, these candidates are all elected

If the number of candidates is higher than the number of seats, these seats are distributed among the candidates in a decreasing order of the votes they obtained. In case of equality, the order of presentation decides. Before the delegates are appointed, the central electoral committee of the constituency proceeds to the individual attribution of votes to the incumbent candidates who receive half of the votes in favor of their order of presentation. This half is created by dividing the total number of vote in the sub-categories by two, following article 156 §1er, sentence 2, 1° and 4°. The allocation of these ballots is done according to a devolutif mode. They are added up to the nominative votes the first candidates on the list got, in concurrence to what is necessary to achieve to get the specific electoral eligibility of each list. The remaining votes – if there are any – are given in a similar way to the second, third candidate and so on until half of the number of votes of the ballot papers in favor of the order of presentation of these candidates are used.

The eligibility number, specific to each of the lists, is calculated by dividing the electoral number of votes of the list as it is defined in article 166 by the number of seats appointed to the lists plus one.

If the number of candidate of a list is smaller than the number of seats they are entitled to, these candidates are elected and the remaining seat are given to the substitute candidates who arrive first in the order indicated in article 173. If there are not enough substitute candidates for the remaining seats, they are divided up following the rules stipulated in article 167, last sentence.

Art. 173. In each list where one or several candidates are elected compliant to article 172, the substitute candidates with the highest number of votes are declared first, second, third substitute, and

so on. If there is equality, the substitutes are declared first, second, third and so on, following the order of the presentations.

In advance of their appointment, the central committee having chosen the incumbents, continues with the individual attribution to the substitute candidates of half of the number of ballot papers in following the order of presentation of these candidates. This half is established by dividing the total number of ballots by two, compliant to article 156, § 1er, sentence 2, 1° and 2°.

The attribution of these ballots follows a devolutif mode.
